

## Johnson County REMC

Johnson County REMC provides cash incentives to help businesses purchase and install electric energy-saving equipment. The incentives are available to all businesses, regardless of the number of employees. These programs help you more effectively manage energy use and lessen the impact of increasing power costs. We can offer these programs to reduce the demand for power at a much lower cost than building new power plants.

This Acrobat form contains a general application for Johnson County REMC's energy efficiency programs. Individual worksheets are required in addition to this form and available via the links below. Worksheets are required to record the installation of energy efficient lighting, motors and HVAC equipment. A custom worksheet is also available for those measures that do not fit into any of these categories.

## Four Easy Steps to receive your local electric cooperative incentive:

### 1. Is your project eligible?

- Customer has a valid Johnson County REMC commercial account in our electric service territory.
- Equipment must be new and installed in a commercial, industrial, institutional, educational, or governmental building.

### 2. Is the equipment you intend to buy eligible?

- Refer to the [Technical Specifications](#) for planned measures.

### 3. Complete and sign the application.

- Incomplete applications will delay review and payment. Please be sure to provide all requested information.
- The signature on Page 2, Section 1 and submission of the application constitutes agreement with and acceptance of the [Terms & Conditions](#). A signature by other than the account holder will be verified.
- Attach the appropriate measure worksheet (i.e. lighting, motor, HVAC), the manufacturer's technical specification sheets ("cut sheets"), and finally a vendor or supplier's invoice for each type of eligible equipment purchased.

### 4. Does your project require pre-approval?

**NO** If your total incentive request is less than \$1,000 then pre-approval is not required. Within 60 calendar days of installation completion date, submit your application and a copy of your paid invoice showing the date, place of purchase, quantity, model/part numbers and unit price of the equipment installed.

**YES** If your total incentive request is greater than \$1,000 then pre-approval is required. Before you purchase and install the equipment, submit your application and a copy of the vendor's quote.

**MUST** Any project pre-approved and completed in a calendar year must be submitted for payment in the same calendar year.

#### Please note:

- Each customer is eligible for maximum total incentive payments up to \$50,000 per calendar year.
- Payment will be made only if all requirements and specifications are met.
