LED Lighting

Note: LED equipment cannot exceed 60% of existing fixture wattage.

All LED equipment must be DesignLights Consortium (DLC) qualified products, except where noted.

To obtain DLC Product ID # visit www.designlights.org/search

NEW Equipment	Replaced Equipment		Measure Code		Incentive/ Unit		Specs
Linear Ambient Luminaires	Direct or indirect illumination. Includes 1×4, 2×2, 2×4, and 8-foot fixtures replacing linear fluorescent. Full fixture replacement.		LALF		\$30		
High/Low Bay Equipment Replacing HID			Retrof it kit	Retrof it kit	New fixtur e	New fixtur e	
	<250 watt lamp		LH1R	\$15	LH1N	\$30	
	250-300 watt lamp		LH2R	\$25	LH2N	\$50	
	310-500 watt lamp		LH3R	\$40	LH3N	\$75	
	510-750 watt lamp		LH5R	\$65	LH5N	\$125	
	760-1000 watt lamp		LH7R	\$100	LH7N	\$200	
Refrigerator/Freezer/Case Equipment	Replace T12 fluorescent lamps. Horizontal or vertical.	Without occupancy sensors	LRF1		\$5/foot		
			LRF2		\$7/foot		

		With occupancy sensors		
LED Lamps	A-type or omnidirectional lamps. Must be Energy Star listed. Incentive amount cannot exceed 75% of equipment cost.		LEDL	\$3
	Flood or spot lamps, downlight fixtures recessed, surface or pendant-mounted. Must be Energy Star listed. Incentive amount cannot exceed 75% of equipment cost.		LEDF	\$6
Exit Signs	Replace incandescent signs only. No DLC requirement.		LEXT	\$5
Automatic Controls Note: Each sensor must control a minimum of 125 watts.				
Vacancy Sensor	Wall or ceiling mounted. Sensors must operate on a manual on/automatic off basis.		OSWC	\$15
Occupancy Sensor	Remote or ceiling mounted. Sensors must operate on an automatic on/automatic off basis.		OSRC	\$15
High/Low Bay Controls	Fixture mounted sensor for low-bay or high-bay applications. Sensors must operate on an automatic on/automatic off basis.		OSHB	\$15
